

Advanced, Wear-Resistant Tall Fescue

3rd Millennium SRP™ is one of **TMI's** most advanced generations of Tall Fescue. The presence of rhizomes creates a self-repair potential for this species which can speed establishment, improve traffic tolerance, and increase recovery potential from damage.

3rd Millennium SRP™ has an expanded adaptation range, dark color and fine texture, plus, with tall fescue's inherent drought, shade and wear tolerance, make it the new choice for sod production, home lawns, parks and athletic fields.

3rd Millennium SRP™ is a Blue Tag certified grass seed ideal for sod production, home lawns, parks and athletic fields

3rd Millennium SRP™ has been highly rated in NTEP trials for Brown Patch Resistance, Quality Grown Under Shade and Quality Grown Under Saline Irrigation, demonstrating the hardiness of this Turf Type Tall Fescue in demanding growing conditions.

Along with the proven quality of this turfgrass, **3rd Millennium SRP™** offers:

Excellent Mixing With Kentucky Bluegrass

With its dark color and fine leaf texture, **3rd Millennium SRP™** mixes well with 5 to 10 percent Kentucky Bluegrass.

Brown Patch Resistance

Brown Patch can be devastating to Tall Fescues, yet **3rd Millennium SRP™** has been developed with a resistance to the disease that made it a Top Ten performer in an NTEP trial.

Adaptable To A Wide Range Of Applications

The strong growth performance of **3rd Millennium SRP™** has made it a reliable choice for a diverse range of applications, from parks and recreational areas to sports fields, and from residential lawns to commercial landscapes. It's ideal for sod production, as well as for interseeding with existing grass.

KEY BENEFITS:

- **Performance In Shade**
- **Self-Repair Potential**
- **Drought-Tolerant / Water Savings**
- **Traffic Wear Resistance**

Call your **TMI** representative and ask about how **3rd Millennium SRP™** can be the solution for your customers' Tall Fescue requirements.

Industry Leaders

TMI develops, produces and markets turf grass seeds for the United States, North America and more than 20 other countries around the world.

Golf courses, sod growers for sod production and landscapers the world over have found TMI's cool season grasses, warm season grasses, golf grass, and specialty grasses to be state of the art when it comes to color, texture, uniformity, disease resistance and overall performance.

Our extensive network of carefully chosen seed growers produces seeds of the highest quality in the world, with high germination rates and purities that exceed official standards. Our certification, testing and quality controls continue to raise the benchmark for the entire Industry.
