

PARADOX GLR

Perennial Ryegrass

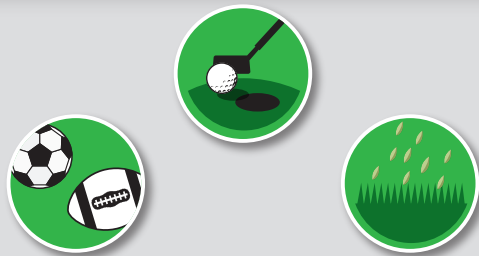

Elite, Fast Establishing, High Quality Turf

Paradox GLR is a new elite Perennial Ryegrass for permanent turf and overseeding golf courses and sports fields!

Dark green color, fast establishment and high quality are just some of the features of this turfgrass. It also offers resistance to disease such as Gray Leaf Spot and remarkable performance under traffic stress.

There's no question that **Paradox GLR** is a superior solution for both new turf and overseeding.

Paradox GLR is an ideal grass seed ideal for sports field and golf applications, including new seeding and overseeding.

PARADOX GLR

Perennial Ryegrass

Paradox GLR represents a remarkable new development in high performing Perennial Ryegrass.

As demonstrated in 2017 NTEP Perennial Ryegrass trials of more than 100 entries, **Paradox GLR** is an elite turf grass solution for both new planting and overseed applications:

Turfgrass Quality

Paradox GLR ranked in the top 5 of all tested seeds in Turfgrass Quality Ratings, with a mean rating of 6.5!

Traffic Stress Resistance

Demonstrating superior hardiness, **Paradox GLR** ranked third in the NTEP trial for Traffic Stress Resistance.

Genetic Color

With a Genetic Color score of 6.5, **Paradox GLR** is a reliably dark green, elite Perennial Ryegrass.

High Establishment & Seedling Vigor

Paradox GLR ranked 7th for Percent Establishment in the trials, and was in the top quartile of all seeds in Seedling Vigor.

Disease Resistance

Paradox GLR exhibits extremely high resistance to Pink Snow Mold and well above average resistance to Gray Leaf Spot.

High Seed Count

With smaller seeds, **Paradox GLR** provides exceptional seed count, providing more bang for your buck!

Contact your turfgrass seed representative about availability and pricing for this new elite Perennial Ryegrass.

Industry Leaders

TMI develops, produces and markets turf grass seeds for the United States, North America and more than 20 other countries around the world.

Golf courses, sod growers for sod production and landscapers the world over have found TMI's cool season grasses, warm season grasses, golf grass, and specialty grasses to be state of the art when it comes to color, texture, uniformity, disease resistance and overall performance.

Our extensive network of carefully chosen seed growers produces seeds of the highest quality in the world, with high germination rates and purities that exceed official standards. Our certification, testing and quality controls continue to raise the benchmark for the entire Industry.
