

The Self-Repair Tall Fescue – Ready To Mix

Rhambler SRP™ is an entirely new generation of tall fescues. The presence of rhizomes creates a self repair potential for this species which can speed establishment, improve traffic tolerance, and increase recovery potential from damage.

With its dark color and fine texture, **Rhambler SRP™** is a natural to blend with 10 percent Kentucky Bluegrass.

Rhambler SRP™ germplasm further resists Brown Patch, a disease which can mean devastation to any tall fescue turf.

Rhambler SRP is TWCA qualified and a Blue Tag certified shade-tolerant grass seed ideal for sod production and landscaping.

Rhambler SRP™ is a proven performer – the preferred turfgrass in the Midwest – because of its unique attributes:

High Quality:

Mean Quality Ratings – Rutgers Turfgrass Proceedings

An independent university trial demonstrated **Rhambler SRP™** to overtake other commonly used Tall Fescues in turfgrass quality.

The expanded adaption range, favored color and texture, as well as its inherent drought and shade tolerance continue to make **Rhambler SRP™** a perfect fit for cool season and transition zone applications.

KEY BENEFITS:

- **Wear Resistance**
- **Self-Repair from Wear and Divots**
- **Shade Tolerant**
- **Drought-Tolerant / Water Savings**
- **Disease (Brown Patch) Resistance**

Call your **TMI** representative and ask about how **Rhambler SRP™** can be the solution for your customers' Tall Fescue requirements.

Industry Leaders

TMI develops, produces and markets turf grass seeds for the United States, North America and more than 20 other countries around the world.

Golf courses, sod growers for sod production and landscapers the world over have found TMI's cool season grasses, warm season grasses, golf grass, and specialty grasses to be state of the art when it comes to color, texture, uniformity, disease resistance and overall performance.

Our extensive network of carefully chosen seed growers produces seeds of the highest quality in the world, with high germination rates and purities that exceed official standards. Our certification, testing and quality controls continue to raise the benchmark for the entire Industry.
