

SELF-REPAIR POTENTIAL TALL FESCUE

Shade-Tolerant, Disease-Resistant Tall Fescue

TRAVERSE SRP™ is compact, dense, has a dark green color and is fine-leaved, making it a go-to choice for landscapers and sod producers.

This Tall Fescue spreading rhizomes strengthen sod, help establish new turf, repair damaged areas, and helps in the establishment of sod and general turf applications.

TRAVERSE SRP™ has improved Brown Patch resistance, and is especially helpful where heat and humidity pressure take its toll on older tall fescues.

Traverse SRP™ is a Blue Tag certified grass seed ideal for sod production and landscaping in both sun and shade conditions.

SELF-REPAIR POTENTIAL TALL FESCUE

TRAVERSE SRP™ has been submitted for several NTEP (National Turfgrass Evaluation Program) trials, and has repeatedly proven among the very best of Tall Fescues.

The results of these trials* have shown **TRAVERSE SRP™** to demonstrate:

- Superior quality grown under traffic stress
- High quality grown under shade
- Outstanding quality grown in warm temperatures through a five-year period
- Exceptional resistance to Brown Patch
- Solid growth quality grown under saline irrigation
- Ability to thrive and perform in diverse conditions, grown in 9 different geographical locations

Both landscapers, sod producers have responded positively to this remarkable Tall Fescue for its reliable performance during the past 10 years.

Call us about how **Traverse** can help you meet and exceed your customers' needs!

KEY BENEFITS:

- **High Traffic Wear Resistance**
- **Self-Repair from Wear and Divots**
- **Drought-Tolerant / Water Savings**
- **Shade Tolerant**
- **Disease Resistance**

*Based on 3rd party independent testing

Industry Leaders

TMI develops, produces and markets turf grass seeds for the United States, North America and more than 20 other countries around the world.

Golf courses, sod growers for sod production and landscapers the world over have found TMI's cool season grasses, warm season grasses, golf grass, and specialty grasses to be state of the art when it comes to color, texture, uniformity, disease resistance and overall performance.

Our extensive network of carefully chosen seed growers produces seeds of the highest quality in the world, with high germination rates and purities that exceed official standards. Our certification, testing and quality controls continue to raise the benchmark for the entire Industry.
