

The Perennial Ryegrass For Every Location

Pangea GLR represents more than 40 years of perennial ryegrass breeding efforts to produce the one variety that performs anywhere and everywhere in the world!

Advanced Gray Leaf Spot resistance, dark color and compact growth has put Pangea GLR at the top of NTEP tests, and a success for sports fields, commercial property and residential yards.

Pangea GLR can be used anywhere perennial ryegrass is adapted, and mixes well with Kentucky bluegrass, fine fescues and other perennials where a dark green lawn is the desired result.

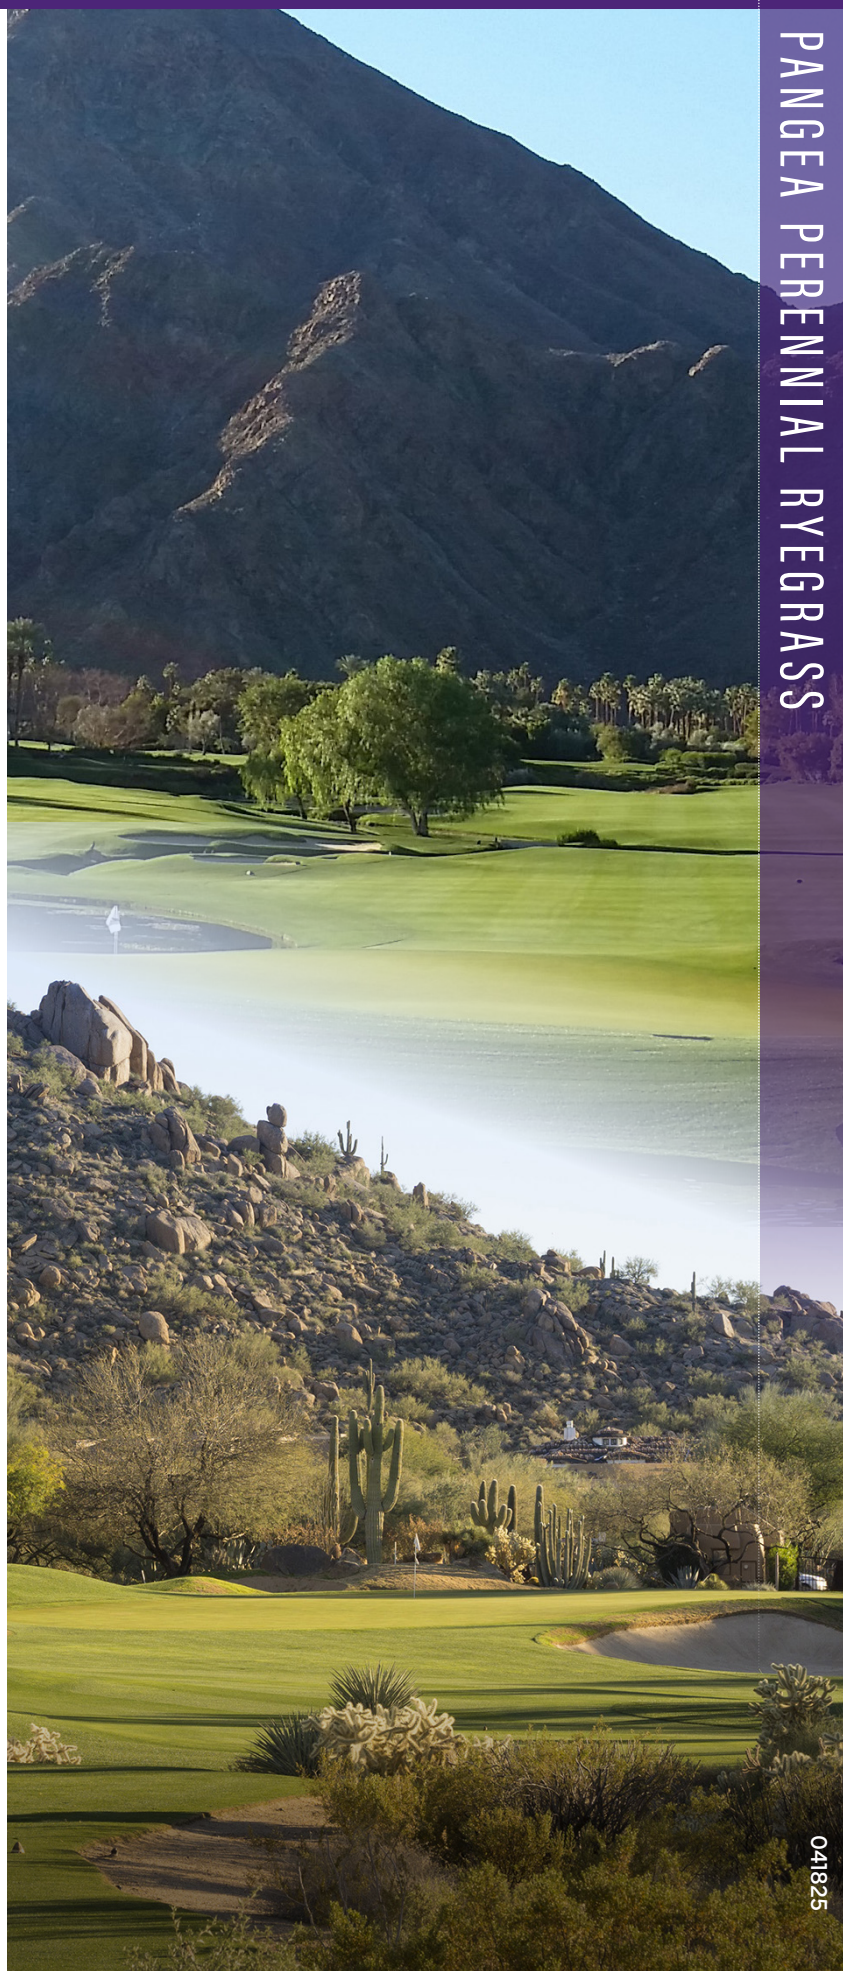

ATTRIBUTES	LOW	HIGH
